## Multiplication

1. Pupils need to learn times tables to be able to perform multiplication methods, these should be practised regularly.
Year 1 - pupils learn by heart 2,5 and 10 times tables.
Year 2 - pupils learn by heart 2, 3, 4, 5 and 10 times tables.
2. Multiplication arrays.
$\bigcirc \bigcirc \bigcirc \bigcirc \bigcirc$
$\bigcirc \bigcirc \bigcirc \bigcirc \bigcirc$
$\bigcirc \bigcirc \bigcirc \bigcirc \bigcirc$
$3 \times 5=15$
3. Multiply on a number line. Pupils start on the left hand side at 0 and make jumps forward. The answer is what number they stop at.
$3 \times 5=15$

15
4. Grid Method of Multiplication $-38 \times 7=$

| $\times$ | 7 |
| ---: | ---: |
| 30 | 210 |
| 8 | 56 |
|  | 266 |

## Division

1. Pupils begin to divide by sharing equally.
$6-2=3$

(works on a one for you, one for me basis, leaving 3 each).
2. Pupils then progress to dividing by grouping.

$$
6-2=3
$$

Draw 6 sweets. Group them into 2's. Count the number of sets and this is your answer.
3. Divide on a number line. Pupils start on the right hand side and make jumps backwards to 0 . Pupils count the jumps and this is the answer.

$$
15 \text { divide } 5=3
$$

$\begin{array}{llllllll}0 & 1 & 2 & 3 & 4 & 5 & 6 & 7\end{array}$ $\begin{array}{lllllll}8 & 9 & 10 & 11 & 12 & 13 & 14\end{array}$
