

Dear Resident,

Unfortunately, due to the recent adverse weather conditions we have been unable to continue with the construction of the access road and the site compound set up resulting in time lost with the site works.

We started the surfacing to the access road however due to flooding we have not been able to complete this to a satisfactory standard so again we have had to postpone commencing works until the area is made safe.

We are aiming for the site cabins to start and be positioned as planned with surfacing of temporary areas following soon after.

Weather permitting, we will commence contract earthworks and foundations with a target date for steelwork the end of April.

What works will happen in the March period

- Complete excavation and installation of the access road to site with associated fence lines forming School staff parking and site compound
- Temporary supplies will be installed to site accommodation
- Site CCTV security cameras will be installed
- Hoarding lines installed to new temporary access road
- Commence earthworks and foundations to new school footprint

Hours of Work

Monday to Friday
Occasional Saturdays

8am to 6pm

8am to 1pm

Only when required to compensate for weather or other factors beyond our control.
