

KNOWLEDGE ORGANISER: Science Growing and Cooking Year 1 Block 6

Key Vocabulary

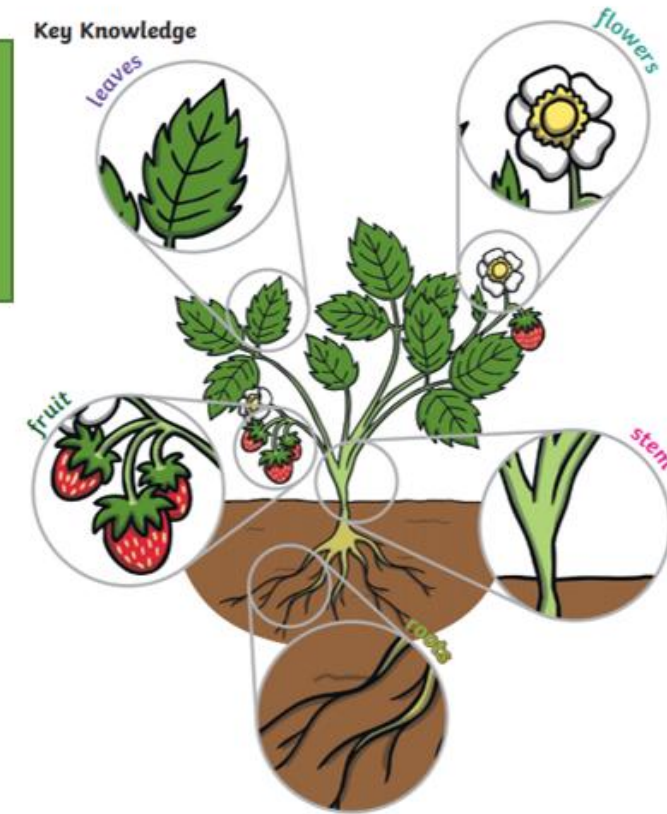

Crops	Plants which are grown for food.
Fruit	A part of the plant that can be eaten.
Vegetable	A part of the plant that can be eaten.
Flower	Attracts Bees and changes into the fruit.
Seeds	Grow into new plants.
Farmer	A person who grows crops.
Cook	Preparing food to eat.

Using fruits and vegetables

We use fruits and vegetables to create a variety of healthy foods. Then can be sliced, diced, blended and cooked!

Key Knowledge

Home Learning

- Look at the plants in your garden, can you name all its parts?
- Draw a diagram of a plant and label it with its parts.
- Create a fact file about plant parts and what they do.
- Play spot the difference between two plants!

Making observations

When we observe we look very carefully. Can you make some observations about these foods and the plants that they come from?
