

# Year 1 – Art Knowledge Organiser

## Key Vocabulary

<b>Texture</b>	How something feels when it is touched.
<b>Collage</b>	Layering different material to make an image.
<b>Tearing</b>	Splitting a material into two parts using your hands.
<b>Cutting</b>	Splitting a material into two parts using scissors.
<b>Sticking</b>	Attaching a material using glue.
<b>Material</b>	What something is made from.
<b>Influenced by or inspired by</b>	When you create something that is like someone else's work.

## Bright Colours

Patrick Heron uses bold bright colours when he creates his art.

Summer 1 – Collage.

## Artist Inspiration

By looking at different artist we can see how they have use materials to make their artwork. This can then give us ideas and lets us see the different way materials can be used that we might not have thought about ourselves.

## Natural Materials

Andy Goldsworthy makes his art in circles and swirls. Richard Long arranges his collages into strips almost like a road or path.

## Home Learning

- See what shapes you can tear paper into. Can you make a circle? What about a square? See how many you can make.
- Using different junk materials can you arrange them to look like an animal or person?
- Can you sort some materials based on their texture? Are they smooth or rough?
